

## Technological edge

Bosch Micro Edge Wiper Blades feature a patented dual-rubber technology that maintains wiping edge flexibility at all temperatures for optimal function and performance.

- 1 Soft rubber wiper-spine ensures low noise and even sweep without chattering and squeaking.
- 2 Internal tension strip enables direct pressure on the wiping edge across the width of blade for improved moisture removal.
- 3 Hard rubber wiper lip ensures long lasting, consistent performance across the width of the blade.
- 4 Smooth graphite coating eliminates gaps and flaws in rubber edge for perfect cleaning.
- 5 Precision cut Micro Edge blade (to 1/100mm) gives superior contact to glass which ensures crystal clear visibility through your windscreen.

## The Bosch advantage

Bosch is a world leader in quality parts. Highly respected for quality, technical innovation and competence, Bosch has been producing automotive products for over 100 years and is the world's leading and preferred supplier of factory parts to all the top name vehicle manufacturers.

Bosch is the largest independent automotive component manufacturer in the world.

Our broad product range includes alternators, starter motors, batteries, belts, brake pads, engine management, ignition coils, ignition leads, ignition modules, ignition parts, lighting, park pilot, spark plugs and of course, wiper blades.

Fit Bosch and you are assured of nothing but the best in quality and safety, day and night.

## The Bosch Micro Edge range

Bosch Micro Edge Wiper Blade refills also available.

## Which blade to use?

Due to the wide variety of vehicles on Australian roads, Bosch Micro Edge Wiper Blades are available in a range of sizes to suit your car's specific requirements.

**It's important to select the correct blade.**

The easy-to-use chart below (as seen on the back of the wiper blade packaging) will help you make the right selection.

## The Quick-Clip method

Bosch innovation has led to the creation of the new Quick-Clip system that enables Bosch Micro Edge Wiper Blades to be fitted to most vehicles.

Simply hook wiper blade into wiper arm.

Pull wiper blade into the wiper arm recess.

Continue to apply pressure until the clip snaps into place.

Bosch Micro Edge Wiper Blades also come with a universal Quick-Clip adapter enabling quick and easy installation on a wide range of vehicle types.

It is the only system which fits both hook and prong wiper arm types without any additional adapters.
